FastWatch – Sprint 1 Retrospective

What Worked?

- Communication channels
- Meeting Length
- Repository updates on Slack channel

What did not work?

- Completeness of test classes
- Clear boundary of who was implementing certain features
- Weekly updates weren't enforced

What should we start doing?

- Dividing labor more efficiently
- Create a backlog of tasks for individuals to pick up
- Implement more complete tests
- Move weekly updates to being submitted by Monday
- Move weekly meeting to Thursday at 11 am
